PROFESSIONAL SUMMARY

Associate Software Engineer with **1+ year of experience** at **Cognizant**, working on **Java-based automation** and **large-scale enterprise systems**. Strong foundation in **core programming concepts**, **OOP**, **SQL**, and **SDLC**. Hands-on experience collaborating with cross-functional teams, validating **REST APIs**, and improving code quality in **Agile environments**. Actively transitioning into development-focused roles with growing expertise in **JavaScript** and **frontend technologies**.

TECHNICAL SKILLS

Programming Languages: Java (Strong), JavaScript (Foundational)

Backend: Spring Boot (Fundamentals), Swagger

Frontend: HTML5, CSS3, React.js

Databases: SQL (Joins, Subqueries, Indexes)

Testing & Quality: Selenium WebDriver, TestNG, Automation Frameworks

Tools: Git, GitHub, Gradle, IntelliJ, VS Code, Rally, JFrog

WORK EXPERIENCE

Cognizant Technology Solutions, Chennai

Oct 2024 - Present

Programmer Analyst

- Designed and enhanced **Java-Selenium automation frameworks** with reusable utilities and validations.
- Refactored brittle test cases, improving execution stability and reducing manual testing dependency.
- Performed **functional, regression, and sanity testing** in Agile sprint cycles.
- Validated backend APIs using **Swagger** alongside UI automation.
- Managed complete defect lifecycle using Rally with clear reproduction steps and impact analysis.

PROJECT EXPERIENCE

Ford Mo-ISIS SV2 Migration

Mar 2025 - Jan 2026

- Enhanced automation coverage using Java and Selenium for critical regression flows.
- Implemented data-driven testing and reusable methods to improve maintainability.
- Ensured feature parity and system stability post-migration across environments.
- Investigated failures using logs and reports to identify root causes.

EDUCATION

B.Tech in Computer Science and Engineering

CGPA: 9.14

Sree Vidhyanikethan Engineering College, Tirupati

CERTIFICATIONS

- Java Selenium – Automation Framework
- Java Spring Boot – Fundamentals
- React – The Complete Guide
- Master Git & GitHub

ACHIEVEMENTS

- Secured **100% score** in internal coding assessment at Cognizant.
- Awarded as a Top Performer employee from the Ford Project.
- Promoted from Programmer Analyst Trainee to Programmer Analyst in 12 months.
